Therefore, the company is working on developing new solutions geared towards the future, with the purpose of enhancing the experience aboard a vehicle. Through smart interiors, with the best technology, more versatile, and with the use of new materials and the best industrial processes.

Grupo Antolin, in its commitment to innovation, creativity and talent, has launched the **I Design Challenge**, which challenges design students in Universities & Schools around the world to design the interior for the vehicle of the future.

Before September 22, 2017, the contestants must submit their proposals for the complete interior of a vehicle for the years 2025-2030. This design must include new solutions for the areas of Overheads, Doors and Hard Trim, Lighting and Cockpits & Consoles.

About Grupo Antolin
